Please refer to the HP Engage Go Convertible user guide for instructions on cleaning this product. Here are additional instructions for cleaning with specific germicidal wipes.

- Turn off your device
- Disconnect any external devices
- Dust the device by wiping with a soft, clean antistatic cloth

IMPORTANT: The cloth should be moist, but not wet. Water dripping into the ventilation or other points of entry can cause damage to your device. Allow the unit to air-dry before use.

Next, use any of the following germicidal wipes* to clean all exposed surfaces of your device. Refer to the directions for use provided by the manufacturer of the wipes.
