

The Right Tools for Professionals

NVIDIA RTX Workstation GPUs

January 2024

NVIDIA Professional Solution Guide

Find the best professional graphics solution for your customers based on their needs.

The current NVIDIA RTX™ lineup includes NVIDIA Ada Lovelace, Ampere, Turing, and Volta GPU architectures. **Please request that your customers contact their software providers for the latest information on application certifications and support.**

1

Ask:

- > Are you a technical professional?
- > Is your title designer, engineer, architect, scientist, analyst, data scientist or researcher?
- > Do you create, render, or visualize large data and images for your work?
- > Do you train or use neural networks?
- > Do you use computationally intensive applications or run simulations?

2

Yes

You have found an NVIDIA RTX Customer. Ask:

- > What industry do you work in or what is your job?
- > What is the primary application you use?

No

- > Go to pages 11-12 for display and video wall recommendations for other industries and professionals.

3

Good

- > Occasional use of application
- > Small objects and assemblies
- > About 10% of the users

Better

- > Regular use of application
- > Average to large objects and assemblies
- > Using all application features
- > About 80% of users

Best

- > Pushing the application to its limits
- > Extremely large objects and assemblies
- > Using all application features
- > About 10% of users

1 For visualization

2 SOLIDWORKS Visualize users may require more powerful and/or multiple GPUs for improved rendering performance, depending on rendering frequency and scene complexity.

Please request that your customer contact their software provider for the latest information on application certifications and support.

Please visit www.gpugenius.com to find:

- > Online sales and product training modules
- > Easy-to-share, customer-ready presentations, solution sheets, and videos

Find the best professional graphics solution for your customers based on their needs.

Ask:

- > Are you using integrated graphics?
- > Are you looking to drive a single or multiple displays or video walls?
- > Do you work in financial services, education, insurance, any commercial environments, government agencies, hospitals, or call centers?

Yes

Recommend*

Are you...	Work Environment	Recommend*			Background and Advantages
Using Windows 10 or 11? Customer is using integrated graphics.	Windows 10/11 is graphically intense. A dedicated graphics card will give a better overall user experience. For multiple displays, customer will need a dedicated graphics card.	Desktop	NVIDIA T400 4GB	NVIDIA T1000 8GB	NVIDIA RTX 4000 SFF Ada Generation and up
		Mobile**	NVIDIA T600		
Using Linux?	Is this to drive a single display? Yes , tends to be for a compute solution. No , is this for high resolution display or video wall?	Desktop	NVIDIA T400 4GB	NVIDIA T1000 8GB	NVIDIA RTX 4000 SFF Ada and up
		Mobile**	NVIDIA T600		
Using 4K displays?	No? Do you plan on using 4K displays in the future?	Desktop	NVIDIA T400 4GB	NVIDIA T1000 8GB	NVIDIA RTX 4000 SFF Ada and up
		Mobile**	NVIDIA T600		
Building a video wall or using for digital signage? Do you need to drive 8 displays or more?			2x NVIDIA T1000 8GB	2x NVIDIA RTX 4500 Ada	2x NVIDIA RTX 6000 Ada / RTX A6000

Yes		Recommend*			
Are you...	Work Environment	Good	Better	Best	Background and Advantages
Currently using or have you used an older P-Series?	If yes, your customer has an environment that uses multiple displays. Ask your customer which graphics card they use and look below for recommendations				
	Are you using P400?	NVIDIA T400 4GB	NVIDIA T1000 8GB	NVIDIA RTX 4000 SFF Ada / RTX 2000 Ada	> The Advantages of NVIDIA T1000 8GB is an additional port, better performance, and includes more CUDA Cores, and higher single-precision performance. > The advantages of NVIDIA RTX 4000 SFF Ada are better performance, more CUDA Cores, addition of RT and Tensor Cores, and higher single-precision performance.
	Are you using P620?	NVIDIA T1000 8GB	NVIDIA RTX 2000 Ada	NVIDIA RTX 4000 SFF Ada / RTX A4500 and up	> NVIDIA T1000 8GB has the same number of display ports, but the user gets enhanced graphics performance. > RTX 2000 Ada offers enhanced performance, ECC memory, more CUDA cores, as well as RT and Tensor cores for real-time ray tracing and AI acceleration. > RTX 4000 SFF Ada / RTX A4500 provides more memory, better performance, more CUDA, RT, and Tensor cores, and higher single-precision performance.
	Are you using P620?	2x NVIDIA T1000 8GB	2x NVIDIA RTX 4500 Ada	2x NVIDIA RTX 6000 Ada	Two cards are needed if driving eight displays. > RTX 4500 Ada brings performance, ECC memory, a higher number of CUDA cores, RT and Tensor cores, as well as dual NVENC/NVDEC for accelerated video encoding and decoding. > RTX A6000 / RTX 6000 Ada provides 48GB of memory and more performance.

*All NVIDIA RTX and Quadro graphics cards offer power efficiencies to decrease power consumption and minimize cost of ownership (TCO).

**Check with OEM manufacturer for specific feature support

Enterprise Graphics vs. Consumer Graphics

NVIDIA makes industry-leading graphics cards for a variety of uses.

When you come across a customer who's using gaming cards for professional applications, make sure they're aware of the unique benefits that NVIDIA RTX professional graphics cards offer.

Benefits of Professional Graphics Over Consumer Graphics

Enterprise graphics cards are built for years of non-stop use:

- > Designed and tested for reliable performance 24 hours a day, 7 days a week.
- > Extended availability and support is offered on all professional cards, including bug fixes for professional applications.

Enterprise graphics cards are built for workplace environments:

- > More GPU memory, smaller footprints, and less power consumption.
- > Deployment can be for tens or hundreds of desktops in offices.
- > **ISV Application certified:** NVIDIA RTX professional GPUs and NVIDIA RTX Enterprise drivers are tested and certified by professional application ISVs to ensure stability, performance, and reliability for their professional customers.

NVIDIA graphics cards provide enterprise support tools for remote administration and deployment, as well as professional features such as:

- > **NVIDIA RTX Desktop Manager software** features a full suite of display management tools like flexible window snapping, user profiles, window management, and hotkey support.
- > **NVIDIA RTX Experience** delivers productivity tools such as the ability to record video at up to 8K, automatic alerts for driver update, gaming features, and application optimization.
- > **NVIDIA Mosaic** display technology lets you combine up to 16 high-resolution displays or projectors to create a seamless large-scale visualization.
- > **Advanced 3D stereo** supports stereoscopic 3D display on HDMI 3D TVs, projectors, and displays, allowing for viewing images and ultrasounds in 3D.

Enterprise	Gaming	Integrated
------------	--------	------------

Performance

Professional application-specific feature development and tuning	•
Driver optimizations to maximize professional application performance	•
Unique features to support professional workflows	•
IT tools for easy deployment and management	•
Gaming profile*	•
Extreme performance scaling with Multi-GPU	•

Reliability

Professional application-specific testing by NVIDIA	•
100+ professional application certifications by independent software vendors (ISVs)	•
Certified across workstation platforms by leading original equipment manufacturers (OEMs)	•
Unified, rock-solid driver with deterministic release schedule	•
Tested and certified by NVIDIA and OEM partners for 24/7 reliability	•
Extended availability	•

Support

Deep workflow experience across vertical industries	•
Long-life cycle availability and support	•
Bulk availability for large enterprises	•
Global technical pre-sales and post-sales support	•
Online end-user forums for fast support from subject matter experts	•

* Most games will run fine on NVIDIA RTX and Quadro graphics cards. Enable the "Game Development" profile if any unexpected results occur while gaming.
